THE UNIVERSITY OF GEORGIA COLLEGE OF AGRICULTURE ATHENS, GEORGIA 30602

Office of the Director

Dear Friends:

Georgia's agriculture, business and people are constantly changing. If our state is to continue to grow and prosper during the 80's, we need to understand how to live and work within our everchanging environment.

In order to help Georgians understand how our state is growing and changing, The University of Georgia's Cooperative Extension Service has developed The Georgia County Guide. The Guide represents an effort to supply current information to decision makers and interested citizens concerned about Georgia's future.

The 1984 Georgia County Guide is one of several efforts by the Cooperative Extension Service to provide information and assistance to the State of Georgia and its local units of government. For more information on assistance available, contact any county Extension office.

Sincerely,

Tal C. DuVall
Director

416750-1

THE GEORGIA COUNTY GUIDE

Fourth Edition
Spring, 1984

Edited By:

Douglas C. Bachtel
Extension Rural Sociologist

Cooperative Extension Service
College of Agriculture
The University of Georgia
A Unit of the University System of Georgia
Tifton, Georgia

The Cooperative Extension Service offers educational programs, assistance and materials to all people without regard to race, color or national origin.
AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION ORGANIZATION

Divorces: Total Number, Rate, Black, White 146-147
Infant Deaths, One Year and Under: Total Number, Rate, Black, White 148-149
Live Births to Unwed Teenage Mothers, Induced Abortions: Total, Black, White, Percent of Total 150-151
Marriages: Total Number, Rate, Black, White 152-153
Sexually Transmitted Diseases, Suicides 154-155

NOTES 156-157

SOURCES 158-161

Editor's Note:

The 1984 Georgia County Guide contains 68 tables of agricultural, educational, economic and demographic facts and figures for all 159 of Georgia's counties, plus 18 maps collected from 31 federal and state agencies and 6 private corporations.

The principal concern is that the 1984 Georgia County Guide should be an accurate, up-to-date, and easy to use reference work. The contents of this publication can be reprinted or otherwise used without written or oral authorization, but acknowledgement of the proper source would be appreciated. Individuals and organizations are encouraged to use the material for information purposes.

Help and cooperation on this publication came from government agencies, private industries and individuals. Thanks are offered to the Cooperative Extension Service for logistical, secretarial, and professional support. The Kelley Manufacturing Company, Tifton, Georgia provided an Olivetti M-20 Microcomputer for data processing. Sincere appreciation is also extended to the many agencies who contributed information for this year's publication.

The 1984 Georgia County Guide project would never have been completed had it not been for the valuable assistance of Cherry Durrett. Her knowledge, patience and advice is deeply appreciated.

A special thanks to Dr. J. Edward White, Director, Rural Development Center, for his administrative support. Thanks must be given to Annette Thompson who typeset the book and to Ann Grubbs and Betty Cushion of the Rural Development Center Printing Department who produced the final document. In addition, Jennifer Crevasing, Carol Durr, and Roger Nelle, General Manager, Kelley Manufacturing Company Farm Data Systems, Tifton, also provided vital assistance.

The maps were produced by Dennis Bains, Cartographic Technician, Department of Geography, The University of Georgia.

The manuscript was reviewed by: J. W. Poe, Assistant Director, Community and Rural Development, Cooperative Extension Service, The University of Georgia; John Hardy Anderson, Jr., Board of Regents, University System of Georgia; Dan Gunnels, Clarke County Extension Director, Cooperative Extension Service; Joe Reilly, Coordinator, Atlanta Regional Office, U.S. Bureau of the Census; and Howard Schretter, Assistant Professor of Geography, The University of Georgia. Their help is also acknowledged and appreciated.

Suggestions from users plus the development of a better system to manipulate the data have enabled us to improve and expand the format. Comments, corrections and suggestions for additions or improvements of this work are invited.

The cover was designed by Vincent Keeses. According to early explorers, buffaloes once roamed in Georgia and they are just one facet of Georgia's interesting and rich heritage.

Douglas C. Bachtel

*Metropolitan County

[1]An urbanized area consists of a central city or cities and surrounding closely settled territory ('urban fringe').
[2]Urban areas are places with 2,500 or more inhabitants.
[3]A farm is a place with $1,000 or more in sales of crops, livestock, or other farm products during the preceding calendar year.

*Metropolitan County

[1]Rank: 1 = highest
[2]See Notes

NOTES

In every table counties with an asterisk (*) beside their name are metropolitan counties.

A metropolitan county is a county that is part of a Metropolitan Statistical Area (MSA). All other counties are nonmetropolitan counties. In 1983 Georgia had 38 metropolitan and 121 nonmetropolitan counties.

The general concept of a metropolitan area is one of a large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus.

Each MSA has one or more central counties containing the area's main population concentration: an urbanized area with at least 50,000 inhabitants. An MSA may also include outlying counties which have close economic and social relationships with the central counties.

Pages 16-17 AGRICULTURE
Number of Farms, Harvested Cropland: 1974, 1978, 1982

Definition of farm — in accordance with a joint agreement between the U.S. Department of Agriculture, the Office of Management and Budget, and the Bureau of the Census, announced on August 12, 1975, a farm, for statistical purposes, is any place from which $1,000 or more of agricultural products were sold, or normally would have been sold, during the census year. The previous definition (used for the 1959, 1964, 1969 censuses, and for the 1974 preliminary county reports) counted as farm any place with less than 10 acres from which $250 or more of agricultural products were sold or normally would have been sold during the census year, or any place of 10 acres or more from which $50 or more of agricultural products were sold or normally would have been sold during the census year.

Pages 22-23 COURTS
Superior Court Case Loads: 1983

[1]Indictments and accusations docketed in the court in the fiscal year.

[2]Terminations of cases in the fiscal year. When dispositions exceed the filings, this indicates the termination of cases which has been filed in the fiscal year and cases in the previous years.

[3]Indicates the docketing of the complaint or petition that initiates the case. Civil dockets include the majority of all civil actions before the court including contracts, torts, domestic relations, and routine proceedings such as garnishments, foreclosures, and dispossessories.

[4]Termination of the action. This includes settlements, dismissals, before trial judgments as well as trial termination.

[5]Backlog: criminal cases 4 months to 6 years; civil cases 6 months to 6 years.

Pages 80-81 HOUSING
New Privately Owned Housing Units Authorized in Permit-Issuing Places: 1976-1982

The information contained in this table was collected from approximately 16,000 places identified as permit-issuing in 1978. This universe accounts for a major portion of new residential housing units started in the United States. In 1979, about 88 percent of all new private housing intended for occupancy on a housekeeping basis was constructed within permit-issuing places.

NOTES

Pages 142-143 **VITAL STATISTICS**
Births; Total Number, Rate, Black, White: 1981

$$\text{Birth Rate} = \frac{\text{Live Births}}{\text{Females ages 10-44}} \times 1000$$

Live birth: a newborn showing any evidence of life (breath, heartbeat, or movement of voluntary muscles) after complete birth.

Pages 146-147 **VITAL STATISTICS**
Divorces; Total Number, Rate, Black, White: 1981

$$\text{Divorce Rate} = \frac{\text{Total Divorces}}{\text{Total Population}} \times 1000$$

Pages 148-149 **VITAL STATISTICS**
Infant Deaths, One Year and Under; Total Number, Rate, Black, White: 1981

$$\text{Infant Death Rate} = \frac{\text{Death less than 1 Year of Age}}{\text{Live Births}} \times 1000$$

Pages 152-153 **VITAL STATISTICS**
Marriages; Total Number, Rate, Black, White: 1981

$$\text{Marriage Rate} = \frac{\text{Total Marriages}}{\text{Total Population}} \times 1000$$

Pages 154-155 **VITAL STATISTICS**
Sexually Transmitted Diseases, Suicides: 1981

$$\text{Suicides} = \frac{\text{Suicides}}{\text{Total Population}} \times 100{,}000$$
